

To Tarrant County's Credit Union Members:

In the wake of the two recent bank failures in the U.S., we want to assure you that your deposits are safe at Tarrant County's Credit Union.

Not only is TCCU sound and well capitalized, we reinvest member deposits into our communities via consumer and small business loans. We don't reinvest member deposits in risky, long-term investments in search of a higher rate.

Tarrant County's Credit Union is a federally insured credit union. Each credit union member has at least \$250,000 in total coverage through the National Credit Union Share Insurance Fund, administered by the NCUA. The share insurance fund was created by Congress to insure members' deposits in federally insured credit unions.

- Additionally, all joint owner accounts are combined and insured up to \$250,000.
- The Share Insurance Fund also separately protects members' IRA and KEOGH retirement accounts up to \$250,000 and provides additional coverage for members' trust accounts (accounts with Payable on Death beneficiaries).
- The Share Insurance Fund has the backing of the full faith and credit of the United States.
- Credit union members have never lost even a penny of insured savings at a federally insured credit union.

There are multiple ways in which to structure your account to increase the insurance coverage on your deposits. Our Member Service Representatives can help you maximize your insurance coverage. If you have questions or are concerned about the share insurance on your account, please call us at 817-884-1470.

We're grateful to be able to serve the members of Tarrant County's Credit Union and appreciate your continued support and confidence. In the wake of these unsettling times, it's crucial to have a trusted and valued partner looking out for your best interest.

Working together, toward common goals, will ensure our members' and our Credit Union's success for years to come.

Regards,

Lily Newfarmer, I-CUDE, SCMS
